## DETAILED ACTION

### *Response to Amendment*

1. Amendments to claims 1, 3, 5, and 8 have been entered in the above-identified application. Claims 2, 4, and 7 are cancelled. **Claims 1, 3, 5, 6, and 8 are now pending.**

The previous rejections of record are withdrawn in light of the amendments made to claims 1, 3, 5, and 8.

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tanaka et al. (US 6,912,029 B2).

Tanaka et al. disclose an optical film prepared by laminating at least one of a first retardation film and at least one of a second retardation film or an optical film comprising a laminate having a plurality of retardation films wherein examples of such retardation films include cycloolefin polymers (See Abstract and Column 6, lines 22-54, and Figures).

It would have been obvious to one having ordinary skill in the art to bond or not bond certain areas of the retardation films to each other given that modifying the

Art Unit: 1794

structure in this manner would be merely a matter of obvious engineering choice. With regards to the limitation that at least a part of the area where the retardation films are not bonded to each other can transmit the laser beam, the Examiner takes the position that such a limitation is inherent in a retardation film given that the principal operation of the retardation film is to retard or shift one component of the light passing through it.

***Allowable Subject Matter***

3. Claims 5, 6, and 8 are allowed.

***Response to Arguments***

4. Applicant's arguments with respect to claims 1 and 3 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***
